Professional Summary

Computer Science Engineering graduate with hands-on experience in Java Full Stack Development, REST API development, SQL, and AI-powered applications. Skilled in building scalable web applications using Spring Boot, React, MySQL, and modern software engineering practices through internships and real-world projects.

Education

B.Tech – Computer Science Engineering

ACS College of Engineering

Dec 2022 – Jul 2026

CGPA: 8.81/10

Technical Skills

Programming Languages: Java, Python, SQL

Frontend: HTML, CSS, JavaScript, React

Backend & Frameworks: Spring Boot, Node.js, Flask (Basic), REST APIs

Databases: MySQL, PostgreSQL

AI/ML: TensorFlow, OpenCV, Scikit-learn

Tools: Git, GitHub

Projects

TRACE – AI Code Debugger Application

Tech Stack: React Native, Golang, Ollama, REST APIs, PostgreSQL

- Developed an AI-powered application to automatically detect and debug errors in code.
- Implemented AI models to analyze code, explain issues in simple terms, and suggest corrected code.
- Built backend services using Golang and integrated REST APIs with a mobile-friendly frontend.

LearnSphere – Smart Learning Management System

Tech Stack: Golang, React.js, React Native, PostgreSQL, Tailwind CSS

- Developed a full-stack Learning Management System for web and mobile platforms.
- Implemented authentication, course management, quizzes, and progress tracking features.
- Built and integrated REST APIs with PostgreSQL to deliver a seamless learning experience.

AI-Powered Real-Time Sign Language Translator

Tech Stack: Python, TensorFlow, OpenCV

- Built a computer vision system to recognize Indian Sign Language gestures.
- Implemented deep learning models for gesture classification and text conversion.
- Applied preprocessing techniques to improve model performance.

Internship Experience

Java Full Stack Development Intern | Tap Academy

Feb 2026 – Present | Offline

- Completed hands-on training in Core Java, Advanced Java, MySQL, and Full Stack Web Development.
- Developed responsive web applications using HTML, CSS, JavaScript, and React.
- Applied REST API integration and database concepts through practical projects.

Software Development Intern — MR Tech Lab LLP

Feb 2026 – May 2026 | Hybrid

- Developed and delivered web and mobile applications using modern full-stack technologies.
- Worked on AI-powered and learning management solutions, integrating frontend, backend, and databases.
- Gained hands-on experience in REST API development, debugging, and Agile-based software development.

Machine Learning Intern — SkillCraft Technology

Sep 2025

- Built and evaluated machine learning models using Python and Scikit-learn.
- Performed data preprocessing and validation.

Java Development Intern — Pinnacle Labs

Sep 2025

- Assisted in backend module development using Java and OOP principles.
- Debugged application-level issues to improve system stability.

Certification

- Database Management System – Infosys Springboard
